

College Preparatory HIGH SCHOOL

Online.

UMGA's mission is to vigorously prepare students for college, life's journey, and service to our global community. **LEARN. LIVE. GIVE.**

Welcome to the University of Miami Global Academy (UMGA), a private online college preparatory high school.

UMGA offers an online high school program designed with students and their families in mind, that provides students with superior knowledge of subject matter, informed awareness of the world around them, and **courage to follow their dreams**. Whether preparing for a concert performance, training for an athletic competition, or auditioning for a role on Broadway, UMGA will help you sharpen your intellect to better compete or perform.

We Know What You Need To Achieve Your Goals...

- Highly qualified and certified high school teachers
- Highly interactive learning environment with over 130 courses available including regular, honors, Advanced Placement (AP), world language courses like French, Latin, Mandarin Chinese and Spanish, and exciting electives
- Personal Academic Coaches to help ensure student success
- Small class sizes
- iESOL Program to increase English language proficiency
- Extreme Scholar Program (see web site for details)

Your life is larger than a classroom.

Your education can be too.

At UMGA, our students' learning experience extends beyond the classroom. That's why we offer students extra curricular activities like student clubs, Congressional Award Honor Society, the National Honor Society, service activities, and **www.UMGather.com** to socialize with fellow classmates. And, service learning projects to learn how to apply classroom knowledge to real world challenges.

Service to our community

Is very important and is part of the UMGA experience. Full time students complete "Service Learning" projects that allow them to give back to their local community. Part time students while not required to complete a service project, are given opportunities to help their communities, too. For example, students in Florida may volunteer to help the Humane Society; students in Hong Kong may volunteer to teach English to young children.

Parents, we have you in mind too...

The highest quality standards were used in developing an online classroom that incorporates what parents expect from a private, college preparatory school, including flexible friendly service. UMGA is fully accredited by the Southern Association of Colleges and Schools Council on Accreditation and School Improvement (SACS CASI).

UMGA Parents...

- Receive orientation to online learning and course set up
- Meet their son or daughter's teacher(s)
- Monitor their son or daughter's progress on the web
- Can join the Parent Teacher Committee to share input
